

The new Federal Telephone Privacy Law should not be less than Indiana's State Law. I have actually eliminated virtually all unsolicited calls. Before this, I was receiving as many as 3 or 4 a day, even seven days a week. This is very annoying. If I want to do business with companies, I will call them. I am paying for this phone line. The Weak Federal Law's "Existing Customer" part is very vague. I should be called a customer "only" if I called them. Thank You.
